

The flexible medium-sized automatic dispenser

With its dependable, cost-effective, and robust design, the D410x automatic paint dispenser remains a favored choice for paint stores and DIY chains. It has recently undergone a 5G electronics upgrade while retaining its name and signature features that have made it a top-selling dispenser in its segment.

The equipment's hallmark bellows pump dispensing technology is renowned for providing highly accurate and consistent tinting results. Engineered to eliminate mechanical stress between the pump and colorants, it boasts exceptional durability and offers a lifetime of dependable service without being subject to wear and tear or undergoing replacements.

The COROB D410x is a very accurate automatic dispenser that couples performance with a considerable degree of versatility and configurability.

Consider adopting the energy-saving on-demand simultaneous dispensing default version or upgrading to a fully simultaneous version for faster and larger dispensing capacity, based on your business needs.

The optional automatic shelf is the best solution for accommodating cans of various sizes and moving them effortlessly, while the integrated semi-automatic puncher (optional) provides a safe way to perforate can lids without putting the operator at risk.

Whichever version you choose for your business, be assured the machine is designed for ease of use and workflow efficiency.

BUILT TO LAST

The reliable bellows pump coupled with the latest 5G technology

CONVENIENT SPEED

Simultaneous dispensing at a competitive price

EASY HANDLING

Simplified operations with automatic shelf and puncher options

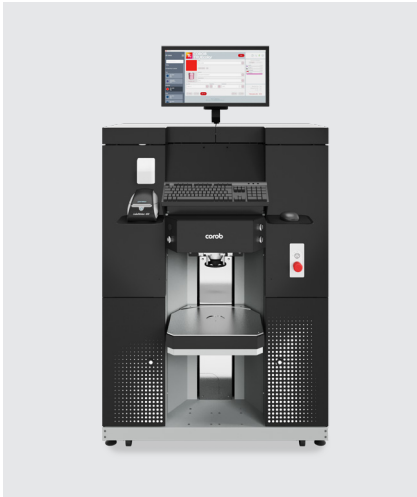

ENERGY SAVING

Simultaneous dispensing with optimized power consumption

ABOUT US

COROB, a GRACO company, is a global leader with a long and successful history in developing, manufacturing and delivering high-tech dispensing and mixing solutions for the widest range of tinting applications. Our offering is supported by a global service network making COROB a total solution provider.

D410x

Technical data

	[S]	[M]	[L]
Business environment	Paint stores, DIYs		
Volume output	Low / Medium		
Dispensing technology	Bellows pump		
Dispensing flow	On-Demand Simultaneous / Simultaneous [optional]		
Circuit flow rate [l/min]*	0.25 [Single pump] – 0.5 [Double pump]		
Minimum dispensed quantity [fl.oz.] (cc)*	1/576 fl.oz. (0.051 cc)		
Valve type	Membrane valve		
Canister configurations	Up to 20	Up to 24	Up to 32
Canister sizes [l] (q-G)**	1.5 (1.58 q) / 2.5 (2.64 q) / 5 (1.32 G)		
Colorant compatibility	Water, Universal, Solvent		
Dimensions HxLxD [mm] (in)	1380 x 950 x 720 (54.3 x 37.4 x 28.4)	1380 x 950 x 880 (54.3 x 37.4 x 34.7)	1380 x 1250 x 880 (54.3 x 49.2 x 34.7)
Footprint [sqm] (sq ft)	0.69 (7.43)	0.84 (9.04)	1.1 (11.84)

* Values highly affected by the nature of the colorants and their rheological properties.

** The bigger size canisters reduce the maximum canister number possible.
